THE SOUTH BRONX CULTURE TRAIL is an initiative by Casita Maria Center for Arts & Education and its Company in Residence, **Dancing in the Streets**, in order to capture key moments in the South Bronx community's cultural history and incorporate them to stimulate economic future economic and creative development.

CASITA MARIA CENTER FOR ARTS & EDUCATION continues its 79-year legacy of serving youth of the South Bronx community and other New Yorkers at its new state-of-the-art-facility with comprehensive kindergarten through college arts and education programs supported by a gallery and a theater to bolster learning. Casita offers safe, rigorous and creative programs both during the school day and during out-of-school time that help transform the lives of the youth it serves. www.casitamaria.org

DANCING IN THE STREETS has a 29-year legacy as a producer of innovative dance, interdisciplinary, and site-specific performances in unexpected public locations throughout New York City. Since moving to the South Bronx in 2011 as a Company in Residence at Casita Maria, **Dancing in the Streets** is applying that legacy towards developing public performances in the Bronx that expand the cultural conversation, build community, nurture artists, and reclaim, revitalize, and draw attention to the borough's unknown architectural, natural, and cultural treasures. www.dancinginthestreets.org

THE SOUTH BRONX CULTURE TRAIL is supported by **The Rockefeller Foundation's** NYC Cultural Innovation Fund with additional support from **Bronx Lebanon Hospital Center**, **Con Edison**, **New York City Department of Cultural Affairs** and **The New York Community Trust**. **The Bronx Revolution and the Birth of Hip Hop** is supported by the **National Endowment for the Arts**, **Con Edison**, the **Association of Performing Arts Presenters / MetLife Foundation All-In: Re-imagining Community Participation Grant** Program and sponsored by **Bloomberg**.

This year's **SOUTH BRONX CULTURE TRAIL FESTIVAL: THE BIRTH OF HIP HOP** leads us back to the beginning. The earliest days when there was **DJ Kool Herc** with his desire for positive social change, unrivaled sound and ingenious innovations to the break that revolutionized everything about the beats. From there, we celebrate all the **B-Boys, B-Girls, DJs** and **MCs** who followed by manipulating those beats into an extension of the body, mind and soul. We revel in the Graffiti Artists' refusal to remain unseen and anonymous. We pay tribute to **Afrika Bambaataa's** commitment to evolving and bringing Hip Hop together, while still holding the core values strong. We cherish the esteemed artists and historians who documented and preserved it for future generations. **We venerate all the great Pioneers of Hip Hop, who not only changed our city but also took the entire world with them in the process.**

Most of all, we stand in awe of earlier generations of **Bronxites** and their insuppressible spirit that transformed unfathomable socio-economic and political challenges into an unstoppable force for creation. Fortunately for us, the Bronx's aesthetic drive is still as strong today, because **THE BIRTH OF HIP HOP** also brings us right back to the here and now. We treasure and make way for all of our brilliant, emerging artists, who continue to build on the monumental legacies of the past.

We hope you join us, since ultimately, this festival is about you - taking part and making it all worthwhile.
